

A Measure of Intermittent and Constant Osteoarthritis Pain, ICOAP: HIP Version

People have told us that they experience different kinds of pain (including aching or discomfort) in their hip. To get a better sense of the different types of hip pain you may experience, we would like to ask you about any “constant pain” (pain you have all the time) separately from any pain that you may experience less often, that is, “pain that comes and goes”. The following questions will ask you about the pain that you have experienced in your hip in the PAST WEEK. Please answer ALL questions.

A) CONSTANT PAIN

For each of the following questions, please select the response that best describes, on average, your constant hip pain in the PAST WEEK.

1. In the past week, how intense has your constant hip pain been?
